

Career Objective

Motivated and adaptable Computer Science student with strong foundations in full-stack development and cloud computing. Seeking opportunities in fintech, software engineering, or cloud-based product roles to contribute to impactful projects, enhance technical skills, and thrive in dynamic environments.

Education

GMR Institute of Technology, Rajam	Aug 2022 – Present
B.Tech in Computer Science (<i>GPA: 9.1/10</i>)	
Chakradhar Junior College	Jul 2020 – Jun 2022
Intermediate MPC (<i>91.7%</i>)	

Experience

HashTek Solutions, Visakhapatnam	Jun 2024 – Jul 2024
<i>Cloud Computing Intern</i>	
- Configured and launched AWS EC2 instances and S3 buckets for hosting and storage. - Created IAM roles and policies for secure user access. - Gained hands-on knowledge in AWS infrastructure, service integration, and basic deployment strategies.	

Certifications

ServiceNow Certified Application Developer (CAD)	Jun 2025
ServiceNow Certified System Administrator (CSA)	Mar 2025
AWS Academy Graduate: Cloud Foundations	Nov 2024

Projects

Campus Placement Portal	Live GitHub
Developed a full-stack platform for managing student placements and recruiter interactions.	
Technologies: MongoDB, Express.js, React.js, Node.js, JWT	
Outcomes: Enabled secure JWT authentication, automated real-time tracking, and reduced manual workload in placement processes.	
Modern Cuts & Styling Website	Live GitHub
Built a location-aware barber shop booking platform with a clean, mobile-friendly UI.	
Technologies: React.js, Tailwind CSS, Node.js, MongoDB, Google Maps API	
Outcomes: Streamlined appointment booking, improved customer engagement, and enhanced business visibility online.	

Technical Skills

Languages: C++, Python, JavaScript, HTML
Frameworks & Tools: React.js, Node.js, Express.js, NestJS, GitHub, VS Code
Databases: MongoDB, PostgreSQL, Prisma, Mongoose
Cloud/Platforms: AWS (EC2, S3, IAM), ServiceNow
Core Concepts: Data Structures & Algorithms, API Design, Authentication, Deployment

Publications

Deep Learning for Real-Time Object Detection in Autonomous Vehicles	Dec 2024
